PROFILE

As an adept Full Stack developer with a robust background in freelance projects, I embrace new challenges with enthusiasm. Proficient in JavaScript, React, Git, CSS, HTML, DB SQLite, and Django, I bring a wealth of technical expertise to the table. Coupled with strong communication skills and a stellar work ethic, I am committed to delivering top-notch code. Eager to transition into a frontend web developer role, I am poised to leverage my skills to craft innovative and intuitive web applications.

WORK EXPERIENCE

Full Stack Developer

Freelancer   2022 - Present

- Collaborate with clients to gather requirements and translate them into functional specifications.
- Design and implement responsive and user-friendly web interfaces using HTML, CSS, JavaScript and React.
- Develop server-side logic and APIs using Django for efficient data processing and integration.
- Utilize Git for version control and collaborated with clients through code reviews and pull requests.
- Work with databases including SQLite for data storage and retrieval.
- Perform code reviews, debugging, and troubleshooting to ensure high-quality applications delivery.

Frontend Operations Manager   2015 - 2022

Burke & Herbert Bank

- Team Leadership: Supervision and guidance of frontend development teams.
- Process Optimization: Streamlining workflows to enhance efficiency.
- Resource Allocation: Managing workload and resources to meet deadlines.
- Quality Assurance: Overseeing the quality of frontend deliverables.
- Interdepartmental Collaboration: Promoting collaboration between teams.
- Strategic Planning: Developing and executing strategies for frontend development projects in alignment with overall business objectives.
- Performance Monitoring: Tracking and analyzing key performance indicators (KPIs) to measure the success of frontend operations and implementing corrective actions as needed.
